EXP NO: 2 AZURE DEVOPS PROJECT SETUP AND USER STORY MANAGEMENT

Aim:

To set up an Azure DevOps project for efficient collaboration and agile work management.

Procedure:

Create an Azure account and log in.

1. Create a new project:
    - Go to Organization Home page
    - Click New Project
    - Enter:
        - Name (e.g., LMS)
        - Description
        - Visibility (Public/Private)
    - Click Create
2. Ensure correct organization is selected:
    - Switch organization from top-left if needed
3. Open the Project Dashboard
4. Manage User Stories:
    - Go to Boards from left menu
    - Click Add Work Item / + button
    - Select User Story
    - Enter details and save
